FEATURES

- Precision accuracy
- Reliable and durable
- Fastest gun zeroing and sighting system
- Reduce wasted cartridges and shells
- Compact and lightweight
- Easy to pack and travel
- Comes with a carrying case

INCLUDED ACCESSORIES

- Battery pack
- Carrying case

The **Sightmark Laser Boresight** provides the most convenient and accurate method for sighting in rifles and shotguns of all types. Simply chamber the boresight like a regular bullet and a laser dot will show exactly where the rifle is aiming. It's easy to sight in any scope without firing a single shot. Live fire is only needed to fine tune the weapon being sighted in order to compensate for inconsistencies, such as bullet drop due to distance. Perfect for hunters, competitive shooters and law enforcement, the Sightmark Laser Boresight is sure to take the frustration out of sighting in almost any gun. It's easy to use and will quickly save both time and money by avoiding prolonged live fire tests at the range; use the extra ammo for honing those shooting skills and for the hunt. A light-weight carrying pouch protects the laser for convenient use in the field. The Sightmark Laser Boresight is available in several calibers and gauges for use with all the most popular rifles and shotguns. Sightmark-Make Your Mark!
